

DON'T BE EMBARRASSED BY YOUR LAWN.

Don't let fungus diseases, like brown patch and gray leaf spot, get in the way of enjoying a lush, green lawn this season. Lawn Doctor can make you aware of these conditions and work with you to treat them and improve the health of your lawn.

Lawn Doctor's Fungus Control

- 🌿 Fungicides are used to treat fungus issues – mainly brown patch and gray leaf spot.
- 🌿 Three applications are needed for effective control and occur 21 days apart.
- 🌿 Fungus is caused by certain weather conditions so once visible, the area can be treated effectively.

How You Can Help Reduce the Effects of Fungus:

- ➔ Water your lawn between the hours of 5 am and 9 am
- ➔ Drastically reduce watering in the fall
